## **MEDIA ADVISORY**

### **Nighttime Lane Striping on Riverside Avenue Bridge over Interstate 10**

**Rialto, Ca** – In an effort to improve operation of the I-10 / Riverside Avenue Interchange, crews will perform a striping project on Riverside Avenue near the eastbound on and off ramps of Interstate 10. Motorists can expect crews to be present from 9:00 pm, Sunday, September 22, to 5:00 am, Monday, September 23. Short-term, intermittent lane closures may be necessary to safely execute the work, but at least one lane in each direction will be available at all times (including the ramps) during this operation.

In November 2011, the City of Rialto, San Bernardino Associated Governments, and Caltrans celebrated the completion of the Riverside Avenue Interchange Project. This project expanded Riverside Avenue to nine lanes over Interstate 10, improved access to the freeway on and off ramps, and repaved the intersection of Riverside Avenue and Valley Boulevard. Currently, crews are working on the landscaping portion of this interchange.

Motorists are encouraged to use caution when traveling through the work zone.

DATE & TIME	LOCATION	ROAD/DETOUR INFORMATION
Sunday, 09/22 – 9:00 pm through Monday, 09/23 – 5:00 am	Riverside Avenue near Interstate 10 eastbound on and off ramps	No detours are necessary as at least one lane in each direction will be available at all times. Crews and equipment will be present at various locations within the project area...use caution when traveling through the work zone.

Thank you for your patience and support during this improvement project. Please be aware of the construction area and always make a point to... **SLOW FOR THE CONE ZONE.**
